

Dear Parent(s)/Guardian(s),

Your child will take the **Cognitive Abilities Test (CAT4)**. Dates & times for each class is on their exam timetable. This assessment helps us gain a deeper understanding of each student's strengths and areas for development. It is designed to support both students and teachers in understanding how individual learners think, learn, and what their academic potential may be.

The CAT4 provides schools with a broad and well-rounded view of each student's abilities by assessing four main areas:

- **Verbal Reasoning** – how well students think and reason using words
- **Non-Verbal Reasoning** – problem-solving using shapes and visual information
- **Quantitative Reasoning** – numerical thinking and pattern recognition
- **Spatial Ability** – understanding and reasoning with visual and spatial relationships

They will need to bring headphones and a fully charged device for this test.

If you have any questions, please do not hesitate to contact us.

Kind regards,
The Guidance Department
